Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application is in condition for allowance except for the presence of claims 8-11 directed to an invention non-elected with traverse in the reply filed on 28 May 2010. Applicant is given TWO MONTHS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Applicant's request that the Examiner clearly articulate his position on the restriction. Applicant asserts that restriction requirements are different under PCT filed applications than domestic originated applications. Applicant indicates that the PCT rules (especially PCT Rule 13.2) indicates that unity of invention is met among different inventive categories if at least one of a plethora of compounds recited in the various categories is patentable over the prior art. This seems to suggest that the applicant

believes the Examiner is incorrect because the Examiner's restriction relied upon a showing of only "at least one" of the plethora of possible compounds is known (not patentable per se). Firstly, it is clear from the Examiner's restriction (3-1-2010) that domestically originated US application restriction practice was not employed by the Examiner and the Examiner's rationale is clearly stated in this regard. The Examiner is confident a single showing of unpatentability is the correct standard to apply as opposed to showing all compounds are known in the prior art as suggested by applicant. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas M. Lithgow whose telephone number is 571-272-1162. The examiner can normally be reached on Mon. -Fri..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
